PROFESSIONAL SUMMARY

Data Science undergraduate with hands-on experience in Python, Machine Learning, and SQL. Built end-to-end ML solutions including sentiment analysis and predictive modeling, along with interactive dashboards using Streamlit. Strong in data preprocessing, model development, and extracting actionable insights from real-world datasets.

EDUCATION

Teerthanker Mahaveer University, Moradabad

Bachelor of Technology in Data Science

07/2022 – 07/2026

Moradabad, UP

CGPA :8.25

INTERSHIP

Intern TCS-ion

06/2024-10/2024

- Worked on attendance management workflow digitization using mobile application concepts.
- Improved understanding of mobile app workflows, reporting systems, and real-world problem solving.

Softpro Intern

06/2025 – 08/2025

- Performed data preprocessing, feature engineering, and EDA on real-world datasets using Python.
- Developed and optimized ML workflows with Scikit-learn and MySQL for efficient data processing.

PROJECTS

Softpro Analytics – Sentiment & Sales Insights

- Performed EDA on company dataset to identify trends and insights
- Applied preprocessing including missing values, encoding, and normalization
- Implemented K-Means clustering to segment data based on patterns
- Developed a Streamlit dashboard to visualize insights and support decisions

Heart Disease Prediction System Using Machine Learning & Streamlit

- Developed a machine learning model for heart disease prediction using clinical data
- Performed data preprocessing including cleaning, encoding, and feature scaling
- Trained and evaluated classification models to select the best-performing algorithm
- Deployed the model using Streamlit for real-time prediction

TECHNICAL SKILLS

Programming & Data Analysis: Python (Pandas, NumPy, Scikit-learn)

Databases: SQL (MySQL)

Machine Learning: TF-IDF, Logistic Regression, Random Forest

Data Visualization & Apps: Streamlit, Plotly

Web Technologies: HTML, CSS, JavaScript, REST APIs

Tools: GitHub, VS Code, Excel, Jupyter Notebook, Postman

ACHIEVEMENTS

- Achieved 77.5% in R Programming certification through Spoken Tutorial (IIT Bombay)
- Successfully completed multiple Python assessments demonstrating strong problem-solving skills
- Built and deployed machine learning and data analytics projects using real-world datasets
- Developed end-to-end ML applications using Streamlit for real-time predictions and insights

CERTIFICATIONS

- Statistics Using R and Python – Oct 2023
- Data Analytics Internship – Softpro
- Python and Pandas Certification – July 2024
- Summer Training in Python with Data Science – July 2025
