PROFESSIONAL SUMMARY

Data Science undergraduate with hands-on experience in Python, Machine Learning, and SQL. Skilled in building end-to-end machine learning solutions, including sentiment analysis, predictive modeling, and Streamlit dashboards. Strong foundation in data preprocessing, model development, and deriving actionable insights from real-world datasets.

TECHNICAL SKILLS

Programming Languages: Python, SQL, Java (Basic)

Libraries & Frameworks: Pandas, NumPy, Scikit-learn, Streamlit, Plotly

Machine Learning: Classification, Clustering, Logistic Regression, Decision Trees, Random Forest, Model Evaluation

Generative AI (Basic): LLMs, Prompt Engineering, LangChain, RAG, Embeddings, OpenAI API

Databases: MySQL, MongoDB (Basic)

Software Engineering: Problem Solving, Debugging, REST APIs, Software Testing, Application Development

Web Technologies: HTML, CSS, JavaScript (Basic)

Tools: Git, GitHub, Linux, VS Code, Jupyter Notebook, Postman, Excel

EXPERIENCE

Data Science & Analytics Intern

May 2026 – July 2026

Amdox Technologies | Remote

- Completed Data Science & Analytics training with hands-on experience in Python, data preprocessing, and machine learning.
- Strengthened analytical and problem-solving skills by working on real-world data analysis tasks.

Python with Data Science Intern

Jun 2025 – Aug 2025

Softpro India Computer Technologies Pvt. Ltd. (Grade: A++) | On-site

Noida, Uttar-Pradesh

- Performed data preprocessing, feature engineering, and EDA on 1,000+ real-world datasets using Python.
- Developed and optimized ML workflows with Scikit-learn and MySQL for predictive analytics.
- Generated actionable insights through data analysis and visualization to support data-driven decisions.

Academic Intern

Jul 2024 - Sep 2024

Tata Consultancy Services (TCS)

- Worked on attendance management workflow digitization for 100+ users using mobile application concepts.
- Improved understanding of mobile app workflows, reporting systems, and real-world problem solving.

PROJECTS

Heart Disease Prediction System Python | Scikit-learn | Streamlit | Pandas | NumPy

March 2026

- Built a heart disease prediction system using Python, Scikit-learn, and Streamlit for healthcare prediction.
- Evaluated 5 ML models on 2,516 patient records using data preprocessing and model evaluation techniques effectively.
- Designed an interactive Streamlit application for real-time heart disease prediction and visualization.

Sentiment & Sales Insights Dashboard Python | Streamlit | Plotly | NLP | Scikit-learn

July - Aug 2025

- Built a sentiment analysis and sales insights platform using Python, Streamlit, and Machine Learning for business intelligence.
- Processed and analyzed 1,000+ customer records through data preprocessing, transcription, and sentiment analysis.
- Designed an interactive Streamlit dashboard with Plotly for analytics, CSV report export, and real-time visualization.

Personal Portfolio Website HTML | CSS | JavaScript | Vercel

March - Jun 2026

- Designed and developed a responsive portfolio website to showcase 4+ projects, 5+ certifications, and technical skills.
- Integrated GitHub, LinkedIn, and resume with a clean, user-friendly, and responsive interface.
- Deployed the website on Vercel for seamless accessibility and enhanced professional online presence.

EDUCATION

B.Tech in Computer Science Engineering (Data Science)

2022 – 2026

Teerthanker Mahaveer University, Moradabad

CGPA :8.7 / 10

ACHIEVEMENTS & CERTIFICATIONS

- Achieved 77.5% in the R Programming Certification conducted by Spoken Tutorial, IIT Bombay.
- Completed Statistics Using R & Python (Oct 2023), Python & Pandas (Jul 2024), and NLP & RL – TCS iON (Jun 2026).
- Developed 3+ end-to-end Machine Learning and Data Analytics projects using real-world datasets.
- Built interactive Streamlit applications for 2,500+ healthcare records and 1,000+ customer records.
